

Success On Your Terms

LEE KENG YEW

From: Cheras

Promoted: November 2018

In 2015, my mother, Madam Tan introduced me to Insaan but I had no interest towards Insaan. There was once, I had my gastric pain and admitted to hospital at last. The doctor diagnosed that I had Helicobacter pylori infection where he prescribed to take painkillers and have an intravenous drip. However, it did not help much. My mother then asked me to take Gamat Asli and Cryobac 193. 2 days after taking these products, I fully recovered from my sickness. Thank you to Insaan leaders, upline and downline. I am successfully promoted to Crown Diamond Manager of Insaan. **Lastly, I would like to say, "I love You, Mum!"**.
